DETAILED ACTION

1. This Office Action is the answer to the communication received on 11/18/2005 (the IDS).
2. Claims 1-12 are pending in this application.

Priority

3. This application claims priority of Germany 103 02 060.8 (1/21/2003).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 10-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. These claims are directed to a method comprising different steps (please note that the bodies of claims 10, 11, and 12 still have steps, not directed to a computer program, a control apparatus, or a motor vehicle comprising a control apparatus – these pending claimed formats are improper), there is a gap of a limitation of “determining an arrival probability (PCOL)” – this is vague and indefinite because the applicant does not explain how to get a PCOL for said determination. Another claimed step requires a comparison of PCOL and PLIM; however, these 2 variables are unknown to get to a “positive” solution for that claim.

In summary, these claims fail to comply with section 112, 2nd para., in failing

distinctly to claim what applicant insists is his actual invention. There is no clear recitation of claimed structural variables; therefore the claim is incomplete, and indefinite and in this way does not conform to the requirement of 35 USC 112.
